Is my writer safe?

Lest year, as in years past, your tap water mer all U.S. Environmental Projection Agency (EPA) and state dinking water health standards. Local Water signlantly safeguards its water supplies and once again, we are projud to report that our system has not violated a maximum contaminant level or any other water quality standard.

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population immunio-compromised persons such as persons with cancer-undergoing chemotherapy, persons who have undergone gran transplants people with HIVAIDS or other ammune system disorders, some clearly, and infants can be particularly at risk from intections. These people should seek advice about drinking water from their health care providers. EPA/Centers for Disease Control/(CDC) guidelines or appropriate means in a season the risk of infection by Cryptoporidium and other microbial contaminants are available from the safe dyacter Drinking Hotline (800-426-4731).

Where does my water some from?

Our value comes from four deep water wells that draw water from the Pascagoula Formation, approximately post feet below the ground surface.

Source water assessment and its availability.

A Source water assessment and its availability.

A Source water assessment has been completed by the Mississippi Department of Environmental Quality, it indicates that all four of our wells are rated as a "MCDERATE" risk for future contamination by ground-water. The complete report is available for review at the Water Department Billing Office.

Why are there contaminants in my drinking water?

Why are there contaminants in my drinking water?

Why are there contaminants in my drinking water?

Thinking water, including bottled water may reasonably be expected to contain at least small amounts of some contaminants. The pre-sence of contaminants does not necessarily indicate that water passes a ballity or its, More information about contaminants and populate health effects can be obtained by calling the Billion of its, More information about contaminants and populate health effects can be obtained by calling the Billion (in the More and the Contaminants and populate) health effects can be obtained by calling the Billion (in the More and the Contaminants) of the Billion (in the Contaminants) of the Contaminants and populate (Son 426-4271). How can I get involved?
The Pass Christian Board of Aldermen has a regularly scheduled meeting on the first and third I needed of each mostle, occurring a f-00 PM. All customers of the Pass Christian Water System are invited to attend fine consumer confidence report with up be mailed to the customers of the water system. In accordance with MSDH regulations, customer motification of these results will be accomplished by this publication.

Additional information for Lead

Additional information for Lead

If present several fiscals of lead can cause serious health problems, especially for pregnant women and
young children. Lead in finking water is primarily from materials and components associated with service
most not home plumbing. Pass Christian is responsible for providing into quality drinking water the annot
mounts you can animize the potential fixed in property of the providing the providing the providing the providing the providing component. When your water has been stiffing for several
hours, you can animize the potential fixed pagesare by flushing your tay for 30 seconds to 2 minutes
leader assign water for drinking or sociating if you are concerned about lead in your water, you may wish to
minimize exposure is awaitable, from the Safe-Dranking water, testing methods, and steps you can take to
lead, 43; a Mussissippi State Department as of health Public Health Laboratory offers lead testing for Sid per
surple. Please contact 601, 576, 7582 if you wish to have your water, tested.

Water Quality Data Table

The table below lists all of the drinking water comminants that we described during the calendar year of this report. The presence of contaminants in the water does not referessarily indicate that the water poses a health rid., Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the term. The EPA or the State requires us to monitor for certain contaminants less than once pet year because the concentrations of these contaminants do not change frequently.
